

## WILD/CARBON

Inspirée de la W1, la nouvelle pagaie WILD carbone apporte tous les avantages que recherchent les pratiquants de kayak en eau vive les plus exigeants. Ses bords fins et sa grande légèreté offrent réactivité et finesse de pagayage sans sacrifier sa grande résistance.

Inspired by the W1, the new WILD carbon paddle has all the advantages expected from the most demanding white water riders. Its light weight for a high velocity ratio and its thin edge for perfect water catch, offer a surprising endurance.
